

STOCKMAN BAKKIE RAILS

SCARLET DAWN TRADING 229 CC, REGISTRATION NUMBER 2006/091017/23,

T/A STOCKMAN

WARRANTY

Stockman guarantees that the load bin of any vehicle, fitted with our rails will not be adversely affected by our rails provided the following is adhered to:

1. The rail was fitted by Stockman or any of their fitment partners.
2. The vehicle never had other rails fitted to the bin prior to Stockman rails being fitted.
3. The rail was not removed and then refitted at any stage unless by Stockman or any of their fitment partners.
4. No structural repair work was done to the load bin by a panel beater or similar repair center prior to fitment or whilst fitted without our supervision.
5. The rail was not exposed to an unreasonable workload for example loading excessive loads on top of the rail or against the sides thereof
6. No structural alterations have been made to the rails by any other party, but Stockman.
7. The Stockman Warranty will last for the duration of the vehicle manufacturer's original guarantee on the bin for example three years or 90 000 kilometers;
 - a. When the manufacturer's guarantee lapses, this warranty will also lapse.
8. This warranty excludes:
 - a. Accidents affecting the load body;
 - b. Overloading (in its widest sense);
 - c. Removing portions of the railing, at any time, even if replaced at a later stage.
9. In the unlikely event of load bin damage occurring, client must report the damage immediately upon same being visible – obvious reluctance to report load bin damage timeously will render the warrantee void.
